
CM send message to client

Posted by jack - 2006/08/14 07:06

A small function. That administrator can send message to user in ClusterManager. If need stop the service. that will easy inform user.

=====

I agree

Posted by wrenhal - 2006/09/20 13:16

That way, if needing to take system down for maintenance or what not you can broadcast a message to clients to save their stuff and log out before losing anything.
