## Internet Explorer

Posted by None - 2004/04/07 19:32

---

Is it not possible to publish Internet Explorer in GoGlobal?

Thanks,  
Robert Birch

It is possible to publish Internet Explorer if your GO-Global license allows it.

If you are having problems or have further questions, please send email to Tech Support at [ggws@graphon.com](mailto:ggws@graphon.com).

I'm using the demo version. Just trying to see what it can and can't do. Would like to replace Citrix and save on the TS license cost.

Thanks,  
Robert Birch

You should be able to publish it with a demo license.
