
Cluster Manager error code 3635

Posted by lemmus - 2008/05/30 14:11

im having problems with Graphon go-global Cluster Manager since May 26 when the server trys to run the Service it sends an error... first was error 3647... i remove some updates from the win 2003 server KB941693 and KB948590 i read your forum and says something about The latest MS updates that affect GO-Global 3.1.1 so i deleted them but now im having another error code 3635 can u please help me with these and tell me what to do next.

Thanks
