Labbis Selects GO-Global for Easy, Web-enabled Access to Business Information Applications from Anywhere

GraphOn Corp. Enters into Partnership with Lithuanian ISV Labbis

SANTA CRUZ, CA, USA – July 27, 2009 – GraphOn Corporation (OTCBB: GOJO.OB), a leading worldwide developer of thin-client application publishing and Web-enabling solutions, today announced that UAB Labbis, an independent software vendor (ISV) headquartered in Vilnius, Lithuania, has entered into an ISV partnership with GraphOn to resell the company's GO-Global Web-enabling software.

Labbis has integrated GO-Global into its Labbis business information system and its Bonus human resources system. As a result, the company's customers will now be able to access these leading application packages from anywhere using any Web browser – regardless of connection, location, platform, or operating system.

GO-Global is a fast, simple, and affordable way for ISVs to instantly extend the reach of Windows applications to the Web or to different platforms such as UNIX, Linux, Mac OS X, Windows Mobile, or Pocket PC. GO-Global reduces time-to-market while eliminating the expense and effort normally required to rewrite applications for the Web or alternate platforms. With GO-Global, ISVs like Labbis retain 100% of their application's features and functions.

"We selected GO-Global because it's a straightforward Web-enabling and remote access solution that meets our needs," said Labbis Business Development Manager Genovaite Ravinskiene. "We also evaluated Microsoft Windows Terminal Server and 2X ThinClientServer, but found GraphOn GO-Global to be the easy, user-friendly solution to access Labbis and Bonus via the Internet without the need for local installations. GO-Global provides easy configuration, easy publishing, and easy management."

"We are pleased that UAB Labbis chose GO-Global to Web enable their applications and we look forward to a mutually beneficial partnership," said Tom Castanzo, GraphOn Regional Manager – EMEA/Australasia.

About Labbis

Established in 1991, UAB Labbis is a leading software development company headquartered in Vilnius with branch office throughout Lithuania.
