Archetype Selects GO-Global for Remote Access to Design Suite

GO-Global from GraphOn Provides ISV with Easy, Cross-platform Remote Access while Eliminating Need for Windows Terminal Services

SANTA CRUZ, CA, USA – July 16, 2007 – GraphOn Corporation (OTCBB:GOJO), a leading worldwide developer of server-centric application publishing and Web-enabling solutions, today announced that Archetype Software Limited has selected GraphOn's GO-Global software to provide cross-platform and remote access to the Windows-based Archetype Design Office Management Suite.

GO-Global is the fast, simple, and affordable application delivery solution that provides instant remote access to centrally-running Windows, UNIX and Linux applications from any location, platform and operating system. With GO-Global, there is no need to rewrite applications for remote or Web access, or deploy complex infrastructure such as Microsoft Windows Terminal Services or Citrix Presentation Server.

Archetype Software is an independent software vendor (ISV) offering the Archetype Design Office Management Suite, a Windows-based application suite for architectural firms and design offices. The comprehensive software suite addresses all aspects of managing a design office, including email, correspondence, drawing, document management, job costing, and resource management.

"We found GO-Global to be the best solution for remote access and enabling our software to run on other platforms such as Mac OS X," said Dr. Alec James, Founder and Managing Director of Archetype Software. "Now our users can connect remotely to their office from any computer and, with a minimum installation, have full access to all of Archetype. We tried Windows Terminal Service, but found GO-Global to be the best and easiest solution."

About Archetype

Headquartered in the UK, Archetype Software Limited was founded in 2001. To date, more than 3,500 copies of the Archetype Suite have been sold. The software is available through a large network of resellers throughout the UK, Southern Ireland, Australia, United Arab Emirates, and India. For more information, visit www.archsoft.co.uk.

About GraphOn

GraphOn Corporation is a publicly-traded company headquartered in Santa Cruz, California. For over a decade, GraphOn has been an innovator of cost-effective, advanced solutions that help customers access applications from anywhere. GraphOn's high-performance software provides fast remote access, cross-platform connectivity, and a centralized architecture that delivers a dramatically lower cost of ownership. The company's solutions run under Microsoft (MSFT) Windows, Linux and UNIX, including Sun (SUNW) Solaris, IBM AIX, Hewlett-Packard (HPQ) HP-UX, and others. For more information, call 1.800.GRAPHON in the USA, +44.1344.668534 in Europe, or visit www.graphon.com.

This press release contains statements that are forward looking as that term is defined by the United States Private Securities Litigation Reform Act of 1995. These statements are based on current expectations that are subject to risks and uncertainties. Actual results will differ due to factors such as shifts in customer demand, product shipment schedules, product mix, competitive products and pricing, technological shifts and other variables. Readers are referred to GraphOn's most recent periodic and other reports filed with the Securities and Exchange Commission.
